# OCTOGRAM

The Octogram invented by Mr. Davidoni, of Romania, presents a technology with flexible material that combines nano ferrite and minerals combination for wellness benefits.

Simply, place one or more Octograms on the body for body field balancing with a return to dominant (brain) chakra 6 and chakra 7 balance (indigo and violet) for optimal longevity.

# AURA / BODY FIELD

The human body field can be assessed by many technologies: LIFE System Biofeedback, GDV Pro Biowell, along with NES Health.

A topic of conversation among USA doctors and clients is EMF exposures and protection from 4G and beyond. Seeking intelligent solutions, the Octogram and Pyramid may assist the body for balance and protection from nefarious rays and EMF exposures. Thank you to inventor, Mr. Davidoni, in Romania. God bless you.

# AURA PROTECTION

Knowing the human body field is dynamic, our bodies are light beings created in the image of God. God is light / photons, and likewise, we are created and fearfully and wonderfully made, as the author of Psalms portrays.

May God receive the glory, honor and praise for technologies that support human wellness, agriculture and sustainability with green initiatives to enhance our best life for decades to come.

THANK YOU FOR YOUR WELLNESS
